

# BREAKING THE CYCLE OF POVERTY

ELIMINATING GENERATIONAL POVERTY REQUIRES A FUNDAMENTAL CHANGE IN CULTURE AND APPROACH.

## CURRENT METHODS ARE INSUFFICIENT AND CUMBERSOME

|                             |                  |                   |                        |
|-----------------------------|------------------|-------------------|------------------------|
| OVER 30                     | INNUMERABLE      | MANY MORE         | \$1.1 TRILLION         |
| FEDERAL DEPTS. AND AGENCIES | PRIVATE PROGRAMS | STATE INITIATIVES | PER YEAR. FOR DECADES. |

TOO MUCH EFFORT | DOESN'T SCALE | NO DATA | NO IMPROVEMENT

## THE NEW APPROACH

EnVision is the first approach of its kind that equips participants for success, not dependency.

Beyond its comprehensive match-making system connecting those who need assistance with those who provide it, EnVision also:

- Builds an enduring data set
- Reduces complexity
- Enhances program results
- Improves quality of life

EnVision utilizes cognitive science to empower individuals to:

- Assess their relevant needs
- Set impactful, achievable goals
- Build personal road maps
- Celebrate success

EnVision is the only system that *rewards* participants for their efforts. By making and keeping promises to themselves, participants generate a new form of "credit" recognized by merchants, employers, banks, and others.

## INITIAL ASSISTANCE CATEGORIES INCLUDE:

- Housing
- Employment
- Child Care
- Child Education
- Healthcare
- Food
- Financial Management
- Transportation
- Relationship Safety
- Legal Aid

## BENEFITS OF SUPPORTING THE ENVISION APP:
